

### **P23 FLEXI-TEX1100** (Membrane – White in colour)

The **P23 FLEXI-TEX1100** is nonwoven, spun-bonded, continuous filament, double, needlepunched, polyester fabric.

#### **ADVANTAGES**

- ✓ Compatibility with acrylics & solvents.
- ✓ High adhesion of acrylic resin to polyester fibres.
- ✓ Controlled mass per unit area.
- ✓ High elongation – ability to perform a continuous fully-bonded membrane over complex shapes.
- ✓ Isotropic (multidirectional) tensile strength – gives system good mechanical properties and resistance to impact and fatigue.
- ✓ Continuous filament – high-tear strength.
- ✓ Good extensibility and conformability.
- ✓ Needlepunched, nonwoven – excellent wettability and saturation properties.
- ✓ Rot proof and has excellent chemical resistance.
- ✓ Excellent weathering properties
- ✓ Excellent resistance to UV degradation.

#### **AVAILABLE IN WIDTH SIZES OF:**

- ✓ 75mm;
- ✓ 100mm;
- ✓ 150mm;
- ✓ 200mm;
- ✓ 300mm;
- ✓ 400mm;
- ✓ 500mm;
- ✓ 1m

Roll lengths of 50m or cut to size.
